Raffles

Our 2014 Fun Run motor is a pre-'74 Chevrolet 350 c.i. non-smog, 4-bolt main, high performance engine donated by NAPA Auto Parts of Big Bear. It's bored .060 over with a .010/.010 crank. It has notched flat-top pistons, 10.5:1 compression ratio and a double roller timing chain and gears. The rod and main bearings have been checked for clearance.

EDELBROCK has donated the Performer RPM aluminum heads with 64 cc combustion chambers. They feature 2.02" intake and 1.60" exhaust valves. They are also in "show polish". Additionally they have donated the Black Performer EPS manifold, 600 cfm Performer Series black powder-coat carburetor, aluminum water pump and the brand new Racing Series aluminum valve covers and air-filter with a pro-flo element.

MILODON has donated the 7 qt. zinc plated oil pan, one-piece pan gasket, high volume/high pressure oil pump, oil pump drive shaft and zinc plated timing cover.

CAR QUEST of Big Bear has donated the HEI distributor, Edelbrock #9629 push rods (to match the heads), headers, harmonic balancer, wires, pulleys, plugs, dip-stick, H2O neck, block off plate, hold downs and all the hardware necessary to assemble the engine.

It is a complete, powerful motor, just supply fluids and electrical power and it will make any project run "real" strong!

Our very special thanks go out to Stan "Digger" O'Dell for all his time and effort in the assembly of this 25th Anniversary Fun Run Motor.

This winner will be announced Sunday morning during the awards ceremony. Winner does not need to be present.
